PROFESSIONAL SUMMARY

Driven and results-oriented 2nd-year Computer Science & Engineering student with strong foundations in Data Structures, Algorithms, Relational Databases, and Full-Stack Web Development. Proficient in Python, JavaScript, and building automated workflows using n8n and AI APIs. Seeking a Software Engineering / AI Development Internship to leverage technical skills in solving real-world challenges.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (ES6+), C++, HTML5, CSS3, SQL
Web & AI Frameworks: React.js, Node.js, Express.js, REST APIs, Google Gemini API
Developer & Automation Tools: n8n Workflow Automation, Git, GitHub, Postman, VS Code
Databases & Systems: MySQL, PostgreSQL, Relational Database Management Systems (RDBMS)
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Agile Development

TECHNICAL PROJECTS

AI Resume Analyzer & ATS Scoring Agent | Python, n8n, Google Gemini API

- Designed and deployed an automated AI agent workflow using n8n to parse PDF resumes and evaluate candidate profiles against ATS standards.
- Integrated Google Gemini API to perform real-time skill extraction, score generation, and weakness detection.
- Automated personalized email report generation using Gmail integration, processing evaluations in under 5 seconds.

Full-Stack Student Management Portal | React, Node.js, Express, PostgreSQL

- Built a responsive web application for managing academic records, supporting CRUD operations for over 500+ student profiles.
- Engineered secure RESTful API endpoints and implemented relational database normalization to optimize query performance by 25%.
- Designed a clean, intuitive frontend interface using React.js and CSS modules.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

2024 – Present

Neuralize Institute of Technology, Vadodara, India (Expected Graduation: 2028)

Current CGPA: 8.8 / 10.0

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Discrete Mathematics, Digital Logic, Web Technologies.

CERTIFICATIONS & WORKSHOPS

- **Agentic AI & n8n Automation Workshop** – Neuralize AI
- **Database Management Systems & SQL Fundamentals** – NPTEL / Coursera
- **Full-Stack Web Development BootCamp** – Udemy

LEADERSHIP & EXTRA-CURRICULARS

- **Technical Coordinator, Computer Society Club:** Organized tech workshops and hackathons for 200+ engineering students.
- **Open-Source Contributor:** Active participant in GitHub community projects focusing on developer automation tools.
